

Long-Term Care Facilities with Positive Incidence of COVID-19 (March 4 – May 22)

As of 5/25/2020, a total of 3,728 COVID-19 cases (19% of total cases) and 667 deaths (62% of total deaths) have been identified as associated with a long-term care facility, including nursing home, assisted living facility or adult family home. These cases may include residents as well as employees and visitors, and currently, we have limited ability to distinguish amongst them.
